

ACCOMMODATION INFORMATION

CGW07 will be organized in the Institute of Nuclear Physics (INP), which is localized quite far from city center. The EuChinaGrid part will take place in a central part of Cracow.

This is why there are two possibilities for accommodation:

1. two different hotels:

A – the one which is close to INP – Hotel **Piast**. – for CGW'07 meeting

B – the second one – hotel **Batory** – which is in a walking distance to the Lazarza Street (LS) where the Euchina part will take place.

2. second solution is to choose the hotel in a city center – the distance to the INP will be shorter

The following hotels are good for second solution:

Cracovia – bus 173 will take you directly to the (INP) and then the tram line # 15 will take to the LS.

Fortuna – bus 173 to INP and tram # 1 to LS

Sheraton – bus 173 to INP and tram # 1 LS

Novotel – bus 173 to INP and tram # 1 LS

General comments:

Cracow is a small city. Almost all important places are available by walking.

So - do not worry – Cracow is people-oriented city.
