## 1st International Conference on European Union and Chinese Grid Experiences

**24 - 25 April 2007, Beijing, China**

Under the theme of "Networking EU & Chinese Grid Experiences for Innovation", the event will provide an outstanding platform for European and Chinese state-of-the-art grid technologies and projects, showcasing results, new application areas and future advancements. The conference is aimed at top-level experts and professionals from large enterprises, SMEs, academic and research organisations, government and public administration, international standardisation bodies, scientific and business associations from Europe, China and beyond. It is organised by EchoGRID and EUChinaGRID, two projects funded by the European Commission. Participation is free of charge but subject to on-line registration.
